

## LIVE. LOVE. COOK... IN LUXURIOUS ITALIAN STYLE

Italy means passion and love for life, the family, beautiful things and cooking. This is the spirit that breathes in all Unica Kitchens products. Every single element is proudly and passionately designed and crafted in Italy. Combining sumptuous style and intelligent performance, Unica Kitchens products unite form and functionality that you and your guests will appreciate down to the last detail. Our mission is to bring Italian-inspired passion to every Unica Kitchens owner.

## ABILITY. FANTASY. CULTURE... OUR PASSION FOR ITALIAN DESIGN

The new millennium is characterized by the conscious choice of a product that combines in itself formal aspects, ergonomics, functionality and aesthetics, and all of these are found in Unica Kitchens. Respect for the environment in the choice of products, finishes and environmentally friendly production lines are integral to our business philosophy. Unica Kitchens chooses to be unique in every aspect of production: design, functionality and ergonomics become part of our daily lives.

# WHY UNICA KITCHENS

## OUR MISSION

### RECYCLABILITY

Doing business means not only what to produce and where but how to produce it. The production line takes into account the whole creation of the product, from the research of raw material, up to its processing in an environmentally friendly system and the recycling of unused material. Each choice is therefore dictated by an awareness of the respect we owe to the world in which we live.

### TECHNOLOGICAL INNOVATION

Continuous research and technological innovation enable us to choose how to do business. The choice of materials and finishes of products responds to a dual need: to respect the environment by restricting the use of raw materials that are depleting and the choice of finishes that allow aesthetic solutions to increase the quality of our daily lives. Respect for the environment and technology coming together is how we do business.

### CRAFTSMANSHIP

Choosing a piece of furniture means more than just finding something functional. We have chosen to combine functionality with design that increases the value of the product itself. Surrounding ourselves with products designed and created with meticulous attention to detail allows us to create an emotional bond with the homes in which we live.

### ECO-FRIENDLY

Unica Kitchens made an ethical choice in deciding to combine respect for the environment with respect for the final consumer. Raw materials and finishes, combined according to the design of the Made in Italy, are accompanied by careful research of ergonomic features to ensure full use of the product. Our mission has thus developed into offering to the market a safe, functional and environmentally-friendly product.

### HEALTH-FRIENDLY

The kitchen is where so much of a family's life takes place. The absence of volatile substances from adhesives and paints and the choice of environmentally-friendly materials and finishes are a commitment that Unica Kitchens makes to ensure the quality and wholesomeness of our lives.

# WHY UNICA KITCHENS

## STANDARD AMERICAN MEASUREMENTS

Unica Kitchens is the only Italian cabinet company building cabinets based on American standard sizes. We understand how important it is to both meet the needs of the American market and offer fine Italian cabinetry.

## UNICA KITCHENS WARRANTY

We proudly provide a Thirty Year Limited Warranty against any manufacturer defects.

## IN STOCK IN THE UNITED STATES

Unica Kitchens are fully stocked in the United States, this eliminates the long wait times that are the norm with European cabinets. Unica Kitchens delivers cabinets throughout the United State with an average delivery time of two weeks or less.

K01

The K01 Kitchen combines two distinct and functional areas: The large and well-equipped island allows for meal preparation, cooking and clean-up. The large wall unit combines pantry storage and built-in appliances.

# K01

This kitchen effortlessly blends with the open living space: The L-shaped kitchen embraces the functionality of the furnishings, creating a unique focal point with the large wall unit. The free-standing cabinetry provides both storage and decorative elements to meet the needs of a young and dynamic environment.

# K02

KO2

K03 is the ideal kitchen for a young couple or a single who loves to entertain. Simple, ergonomic and functional, its unique line contains all of the features of the classic kitchen.

# K03

K03

K04

What immediately stands out in K04 is the choice of a decoration that focuses on contrasts of colors and materials, helping to create an urban atmosphere.

# K04

Dedicated to those who like to surround themselves with fine furniture. Kitchen K05 is characterized by its furniture-like style: the heart of the kitchen is finished in polished rosewood, framed by glossy lacquered doors dyed mink and the light touch of chrome handles.

# K05

K05

Whether in the kitchen, living room or bathroom, handle-free cabinetry has become a fixture of modern furniture design. TIP-ON, our mechanical opening and support system makes tilt-up doors easy to open without having to worry about them slamming shut.

Metal pull-out trashcan frame for 24" cabinet door complete with two bins with hinged lids, equipped with removable handles and containers for cleaning products.

## TECHNICAL PERFORMANCE

BLUMOTION is the soft-close system developed by Blum. Thanks to BLUMOTION furniture closes softly and effortlessly no matter how hard you slam fronts, doors or pull-outs or how heavy they are. The soft-close feature is integrated into lift systems, hinges, drawer boxes and runner systems.

# VANITIES

In recent years the bathroom has gained in importance. The care of ourselves, to take our time to care for our body, this helps take care of our soul. Modern bathrooms are enclaves of tranquility that increase the quality of everyday life.

# V06

Refined and elegant in its simplicity, bathroom V06 consists of a base with suspended drawers and a vessel sink. The function and elegance is complemented by the inclusion of a suspended wall unit with contrasting high gloss lacquer colors.

# V 08

V08 is characterized by its dynamic and youthful design. Wall cabinets overlap and intersect as they support the sink in this dazzling composition.
