

SLIDE®
2015.2016

IT. SLIDE è una realtà *Made in Italy*, nata nel 2002 dal trentennale know-how di Giò Colonna Romano nella lavorazione delle resine plastiche. Con sede e stabilimenti produttivi a Buccinasco, alle porte di Milano, SLIDE è stata la prima azienda a produrre mobili luminosi di design, elementi diventati la chiave del proprio successo. Frutto della collaborazione con designer di fama internazionale e caratterizzati da un utilizzo sorprendente della luce e del colore, la collezione SLIDE comprende un'ampia offerta di mobili, lampade e complementi d'arredo.

La luce e il colore possono cambiare radicalmente l'identità degli spazi dell'abitare: un loro uso sapiente emoziona, comunica, favorisce il dialogo e trasmette positività. Funzionali e versatili, ideali negli spazi indoor ed outdoor, negli eventi e per il mondo del contract, i prodotti SLIDE rompono gli schemi di qualsiasi ambiente tradizionale e ambiscono a diventare un'icona di stile nel panorama del design. SLIDE amplia la propria proposta per entrare in nuovi mercati: con l'utilizzo del poliuretano rigido e flessibile, presentando arredi dalle forme minimal, raffinate e morbide; e con l'introduzione della *Design of Love Collection*, una linea di prodotti giocosa e di tendenza unica nel suo genere. Inoltre, con l'apertura di *SLIDE Lounge*, nel cuore della neo-riqualificata area della Darsena a Milano, l'azienda vuole rivolgersi direttamente al proprio pubblico: uno showroom "dinamico" nel quale il visitatore diventa protagonista di un'esperienza di design interagendo con i prodotti SLIDE.

SLIDE esplora, sperimenta e innova costantemente, garantendo sempre un'eccellenza estetica e funzionale dei propri prodotti e ponendosi all'avanguardia nel mondo del design.

EN. SLIDE is a company with a *Made in Italy* production, founded in 2002 by Giò Colonna Romano benefiting from his thirty-year know-how in the processing of plastic resins. With headquarters and manufacturing establishments in Buccinasco, near Milan, SLIDE was the first company to produce luminous design furniture, elements that became key of its success. As a result of the collaboration with internationally renowned designers and characterised by an exceptional use of light and colour, the SLIDE collection includes a diverse range of functional furniture, lamps and furnishing complements. The light and colour can radically change the identity of living spaces: their wise use can excite, communicate, facilitate dialogue and convey positivity. Functional and versatile, ideal for indoor and outdoor spaces, in events and in the world of contract, SLIDE's products break new ground in every traditional setting and aspire to become a style icon in the design scene. SLIDE extends its offer to reach new markets: with the use of rigid and flexible polyurethane, presenting furniture with minimal and soft shapes; and with the introduction of the *Design of Love Collection*, a range of products that is playful and fashionable unique in its genre. Moreover, with the opening of the *SLIDE Lounge*, located at the heart of the newly redeveloped area of the Darsena in Milan, the company is aimed directly at its audience: a "dynamic" showroom where the visitor becomes the protagonist of a design experience interacting with SLIDE products. SLIDE constantly explores, experiments and innovates, always ensuring an aesthetic and functional excellence and leading the way in the world of design.

.COMPLEMENTS

The image features a solid green background with several circular light spots of varying sizes and brightness, creating a bokeh effect. The spots are scattered across the frame, with some appearing as bright white circles and others as softer, more diffused green circles. The overall composition is clean and modern.

CANDY LIGHT - BATTERY RGB LED MODULE

BATTERY RGB LED MODULE

with IR remote control
IP44 - for indoor & outdoor use

5W POWER MODULE - brightness: 150 lm
10W POWER MODULE - brightness: 300 lm

COMPATIBILITY - SLIDE products with I3 or E3 base.
SPECIFICATIONS - 10 fixed colors, 4 effects.
ACCESSORIES - Power supply & IR remote control (included).
BATTERY RUNTIME - Up to 20 hours.
CHARGING TIME - 12-14 hours.
LIFE EXPECTANCY - 500 charging cycles.

MATERIALS

The SLIDE production is entirely MADE IN ITALY and is produced at the plant in Buccinasco (Milan) - Italy. All SLIDE products are 100% recyclable, realised by the means of a zero emission production cycle in compliance with the environmental sustainability principles. Below the characteristics of the main materials used for the manufacture of SLIDE products.

POLYETHYLENE

Material: Linear low-density polyethylene – LLDPE
Production process: rotational moulding
Resistant to extreme temperatures: -60°C to +80°C
(Luminous version: if equipped with fluorescent bulb -20°C to +60°C / with LED system 0°C to +50°C)
UV resistant (except lighting colours)
High tensile strength
100% recyclable

POLYURETHANE

Material: Polyurethane – PU
Production process: injection moulding
High durability
Very good thermal resistance
100% recyclable

POLYPROPYLENE

Material: Polypropylene – PP
Production process: injection moulding
High tensile strength
Good heat resistance and abrasion
100% recyclable and thermo-destructible with energy recovery

MAINTENANCE & CLEANING

Keep the products away from excessive heat sources.

To prevent dust and dirt from sticking to the plastic surfaces, periodically clean the products.

Avoid using ethanol or any liquids containing acetone, trichloroethylene or ammonia (solvents in general).

POLYETHYLENE: clean the product with a damp cloth and neutral liquid soap diluted in water.

It is recommended the use of SLIDE's "CleanUp" cleaner or a degreaser. In case of persistent stains, use a scrub eraser (melamine foam - Scotch-Brite Easy Eraser or similar) or a hot water pressure washer. Spray the cleaning product on the surface and rub with a damp cloth. Rinse abundantly with water, preferably with hot water high-pressure washer.

POLYURETHANE: clean the products with a soft cloth and neutral liquid soap diluted in water, especially if the surface comes into contact with highly coloured substances (such as coffee, tea, oil, etc.). Only use neutral detergents in water solution.

POLYPROPYLENE: clean the products with a damp cloth and neutral detergents in water solution or degreaser. Rinse abundantly with water.

	CLEAN-UP cleaner	Detergent with high-cleaning power recommended to clean SLIDE products (standard and luminous versions)
---	-----------------------------	---

For lacquered version: periodically clean with a polish cleaner, gently rubbing with soft cloth/cotton wool.

For metal parts use specific detergents, avoiding the use of abrasive cleaners.

For further information on the maintenance and cleaning the SLIDE products consult the technical sheets available to download on the website www.slidedesign.it.

CERTIFICATIONS AND DECLARATIONS OF CONFORMITY

The indoor lamps are certified IP20 protection degree according to standards EN 60598-2-4 IV and EN 60598-1 VI (reference test 99/RPR/366). The certifications for indoor products refer to the bases model I1, I2 and I3.

The outdoor lamps are certified IP55 protection degree according to standards EN 60598-2-7:98 and EN 60598-1:01 + A12:03 + A14:01 + A15:03. The certifications for outdoor products are valid for the bases model E1, E2 and E3.

References from tests on lamps with base model E1 - test TL_046_12 / base model E2 - test TL_047_12 / base model E3 - test TL_048_12. The reference tests are valid for all products in the SLIDE collection.

SLIDE srl (head office: Via Lazio, 14 - 20090 Buccinasco - Milan - Italy) declares that all its products comply with European Union regulations and are marked with the CE label. The regulation is referenced to the 73/23/EEC, subsequently amended by the Executive Council the 19th of February 1973 and harmonized in all member states.

WARRANTY

SLIDE products are guaranteed against all manufacturing faults, granted that the items are appropriately used, for twenty-four (24) months from the date of purchase upon presentation of the invoice. LEDs are guaranteed for twelve (12) months from the date of purchase upon presentation of the invoice.

Warranty doesn't include parts that are subject to wear and tear due to usage, batteries when provided, wiring and electrical parts that do not have manufacturing faults. SLIDE declines any liability to damages caused to things or persons by an illegitimate use of the product.
